

### **REASONS TO BUY**

For added flexibility, users can connect two 4K displays using the onboard DisplayPort and HDMI ports, or up to three displays if a 3rd video connector is configured. There's also intelligent cooling that allows a choice between two modes - best performance mode for extreme cooling and best experience for low-noise cooling.

Extensive security features include TPM chip encryption, **BIOS-based Smart USB** protection that disables data transfers via USB ports, and a Kensington lock slot to secure the device against physical theft.

This device is highly energyefficient, with Energy Star 8.0 and **EPEAT Gold certifications.** ensuring businesses save money and reduce environmental impact.

with the latest enterprise security features.
