

# 42U Wide Server Rack, Euro-Series - 800 mm Width, Expandable Cabinet, Side Panels Not Included

### MODEL NUMBER: SRX42UBWDEXP

42U rack enclosure with 800 mm width houses, organizes and secures rack equipment in high-density server and IT networking areas.

#### **Features**

Wide Server Rack Accommodates 42U of Rack Equipment and Side Cable ManagementThis SmartRack® 42U server rack is designed for network wiring closets, retail locations, classrooms, back offices and other areas with essential rack-mount IT equipment. It is 800 millimeters wide to allow more room for cable management and PDU mounting along the sides of the rack, which permits free front-to-rear airflow. Constructed from heavy-duty steel with a durable black powder-coated finish, the SRX42UBWDEXP has a maximum stationary load capacity of 1360 kilograms and a maximum rolling load capacity of 1020 kilograms.

Keeps Important Equipment Secure The reversible front door and split rear doors lock securely to help prevent damage, tampering or theft. The doors and top panel are designed for quick release, making it easy to access connected equipment and cabling with little effort. Convenient top access ports and an open bottom allow easy cable routing through the cabinet. The vented doors allow generous airflow from front to rear to keep your equipment cool and functioning at their peak.

Easy Enclosure and Equipment InstallationThis 42U server cabinet comes fully assembled for quick and easy deployment with pre-installed casters that let you maneuver it over a level, smooth, stable surface and through a standard two-meter doorway into position, where it can be stabilized by adjusting the levelers. Four mounting rails adjust in 6.35-millimeter increments to accommodate equipment up to 850 millimeters deep. Toolless 0U mounting rails allow quick installation of up to four compatible PDUs and vertical cable managers.

Designed for Baying Multiple Enclosures in a RowThis expansion model comes without side panels for baying with other rack cabinets in a row. Integrated baying tabs make it easy to combine multiple units. This rack is also compatible with hot aisle/cold aisle configurations. Center-to-center width can be set at 800 millimeters to match standard data-center floor tiles. Optional side panels, such as Tripp Lite's SR42SIDE (sold separately), may be added later if desired.

**Meets Payment Card Industry Standards**The SRX42UBWDEXP provides physical equipment and media security required for PCI DSS (Payment Card Industry Data Security Standard) compliance. This is essential for companies that process, store and/or transmit credit card information.

#### **Highlights**

- 42U rack constructed from powder-coated steel that stands up to tough environments
- 800 mm wide to allow side cable management and PDU mounting
- Front and split rear doors lock securely to help prevent damage, tampering or theft
- Comes without side panels for easy baying with multiple rack cabinets in a row
- Mounting rails accept standard rack equipment up to 850 mm deep

#### **Applications**

 Store and organize rack-mount equipment, cable managers and 0U PDUs in a network closet, data center or other area where you need components to be secure

#### **Package Includes**

- SRX42UBWDEXP 42U Server Rack
- (2) Keys
- (50) M6 screws
- (50) M6 washers
- (50) M6 cage nuts
- Owner's manual

## **Specifications**
