PROTECH

PROTECH reinforced protective cases are cleverly designed to protect your devices efficiently if they happen to be dropped. Several technologies using different materials have been developed to cushion shocks, absorb the shockwave and disperse the energy of the impact. The exclusive combination of several protection elements means that PROTECH is highly resistant to falls and drops, in fact, 30 times higher than the requirements of military standard MIL-STD 810G.

Flexible and light, PROTECH cases fit perfectly like a second skin around the devices they protect and thus take up a minimum of space.

REINFORCED PROTECTIVE CASE

FOR GALAXY A40

Ref. 054002

PATENTED INNOVATION

PERIMETRIC BUMPER

4 reinforced corners with integrated TFP 4.0* pads.

TFP 4.0 MOBILIS exclusive anti-shock material

Specifically made to cushion shocks, it instantly absorbs up to 90% of impact energy. Thus, no shock wave is transmitted to your device. This TFP is reinforced with microcells, to be more efficient in repeated impact absorption.
