Part No.: 461894

EAN-13: 0766623461894 | UPC: 766623461894

## Free Standing Monitor Mount - height adjustable gas spring stand for desk to improve ergonomics

The Manhattan Height Adjustable Gas Spring Single Monitor Desktop Stand improves organization on your desktop, making it easier to get work done. Constructed from heavy-duty steel, this VESA monitor mount features a sturdy base that you can just place on your desk without clamp or grommet installation. It supports a 15-inch to 32-inch display with a weight capacity up to 8 kg (17.6 lbs.), including Apple$^®$ iMac or Studio Display. An attractive black semi-gloss finish complements your workspace.

## Push-button height adjustment

A gas-spring cylinder makes it easy to raise or lower the display anywhere from 274 to 460 mm (10.8 to 18.11 in.) so it can sit in the best place for your line of sight. You can adjust its height by just pressing the top-mount button to extend the column or push it back in.

## Versatile view optimization

This mount's adjustable tilt, swivel and height settings create the perfect position to comfortably increase productivity. Such adjustment capabilities can even help reduce eye fatigue or neck and back strain. You can also rotate your monitor from landscape to portrait orientation to view photos in portrait mode or see longer pages and blocks of code without having to scroll down.

## Clean cable management

The included clip, attachable to the back of the column, keeps the cords on your desk tidy and organized.

## Features:

- Free-standing riser for one 15" to 32" monitor up to 8 kg (17.6 lbs.)
- Optimized views with +/-20° tilt, +/-45° swivel and 274 to 429 mm (10.8 to 16.9 in.) height adjustment
- Gas-spring-assisted height adjustment with convenient top-mount push-button
- Supports 360° rotation for landscape or portrait display orientation
- Positions monitor ergonomically above the desktop to increase work space, reduce eye strain and improve posture
- Cable management with attachable clip on column to minimize clutter; also stores hex keys
- Quick-release VESA-plate design to easily hook and mount your display
- Base area with 310 mm width and 200 mm depth (12.2 x 7.9 in.) for perfect stability, great for placing accessories
- Sturdy steel construction with antistatic powder coating
- Rubber feet to prevent slipping and to protect your surface from scratches
- Semi-gloss black finish for a professional and modern look
- Ideal for (home) office, studio, IT network and security applications
- Easy and quick installation, all hardware included
- Meets VESA standards: 75x75, 100x100
