Crestron Flex Small Room Conference System with Jabra® PanaCast 50 Video Bar and Wall Mounted Control Interface for Zoom Rooms® Software

- Front-of-room video conferencing solution for Zoom Rooms[®] software
- Native Zoom Rooms[®] touch screen UI provides a consistent, simple user experience with one-touch meeting joins
- Complete kit contains a 10.1 in. wall mount touch screen, Jabra® PanaCast 50 video bar, UC bracket assembly, and PoE injector—just add a display and mount
- Easy to specify and install no custom design, programming, or software installation required
- Network management and provisioning and system alerts through the XiO Cloud[®] service
- Premium-level support with Crestron Flex Care (optional)
- Enterprise-grade security connects and communicates securely over any enterprise or SMB network
- Supports up to three video displays (not included)

The UC-B31-Z-WM Crestron Flex wall mount conferencing system provides a small room video conference solution for use with Zoom Rooms® software. It supports up to three video displays¹ (not included) and features a wall mount touch screen, Jabra® PanaCast 50 video bar, UC bracket assembly, PoE injector, and cables.

Native Zoom Rooms® Software Experience

The UC-B31-Z-WM system features Zoom Rooms conferencing software that enables audio and video connectivity for easy collaboration and content sharing.

Intuitive User Interface

With a large 10.1 in. (257 mm) capacitive touch screen display, the Crestron[®] wall mount touch screen ($\underline{\text{TSW-1070}}$) provides superior conferencing control in meeting rooms, huddle spaces, and executive offices. The touch screen also offers optional control of room lighting, shades, thermostats, and other equipment.²

Simplified Deployment

The UC Bracket Assembly provides preassembled components on one ready-to-mount bracket to simplify installation. The assembly can be mounted on a wall, or it can be attached to the rear of the display device.

Wall Mount Options

Using the bracket provided, the touch screen is easily installed over a 2-gang or 3-gang US electrical box, or a 2-gang European or UK electrical box. A security latch option is included to deter unauthorized removal of the touch screen.

High-Definition Video Conferencing with Impressive Audio

High-quality speakers and microphones deliver exceptional full-duplex performance from the Jabra PanaCast 50 intelligent video bar (<u>UC-SB-P50</u>). Three built-in conferencing cameras capture the room in panoramic 4K resolution with a seamless 180° horizontal field of view.

Visit <u>jabra.com/panacast50</u> for more information on the Jabra PanaCast 50 video bar.

Enterprise-Grade Security

Crestron Flex is an enterprise-grade solution that is ideally equipped for mass deployment throughout any sized corporate, university, medical, military, or government facility.

Easy Provisioning and Device Management

The XiO Cloud service is an IoT cloud based provisioning service (available separately) that enables installers and IT managers to easily deploy and manage thousands of devices. The XiO Cloud service provides system alerts, network management and provisioning, and the pairing of a control device to the system's UC Engine. System updates are controlled by Windows[®] software update.

Visit www.crestron.com/xiocloud for additional information.

Premium-Level Support

Crestron Flex Care is an optional subscription service that automatically renews annually, providing 24/7 live remote technical support, an extended five year warranty on Crestron[®] branded hardware, expedited advance replacements, and a discounted rate for on-site support.

Visit <u>www.crestron.com/flexcare</u> for detailed terms and conditions and additional information.
