CORSAIR

GAMING CHAIR

## QUICK START GUIDE

EN ENGLISH

INTRODUCTION

Congratulations on your new CORSAIR chair! This quick start guide will walk you through assembly and get you sitting and comfortable as quickly as possible.

There may be differences in the shape, color, or design of your specific chair, but be assured the assembly techniques shown here are compatible for all CORSAIR chairs.

We also have a video guide for most of our chairs on the CORSAIR LAB YouTube Channel, found here: www.youtube.com/CORSAIRHowTo
Thanks for choosing CORSAIR and we hope you enjoy your new chair!
PACKAGE CONTENTS

x1

Seat back

x1

Seat cushion

NOTE: On some models (B1) have the arm rests pre-installed. Others (B2) require installation.
x1

Neck / head and lumbar pillow (if equipped)
x1

Seat control base
x1

Piston cover

x1
Gas piston

x1

Seat base

x5

Casters

x2
Seat back bracket covers

Assembly hardware and tools. (**NOTE:** the included screw quantity, size, and other components may vary slightly)
STEP 1: INSTALL CASTERS

x5

STEP 2: INSTALL PISTON AND COVER

2

1

NOTE: If there is a protective cover on the tip of the gas lift, remove it.
Completed Base Assembly

STEP 3: ASSEMBLE CHAIR SEAT MECHANISM

NOTE: On some models, the screws are pre-installed in the seat and will need to be removed and re-used. In others, the screws are in the hardware bag. Use four screws to secure seat base.
STEP 4: INSTALL ARM RESTS

NOTE: If your chair seat had arm rests pre-installed, you can skip this step.

NOTE: On some models, the screws are pre-installed in the seat and will need to be removed and re-used. In others, the screws are in the hardware pack.

Arm rests may vary in number of screws required to secure to base.

STEP 5: SECURE SEAT BACK TO SEAT CUSHION

NOTE: On some models, the screws are pre-installed in the seat and will need to be removed and re-used. In others, the screws are in the hardware pack. Use two screws per side.
STEP 6: PLACE CHAIR ASSEMBLY ON BASE

STEP 7: PLACE COVERS ON HINGES

NOTE: Some models may also require a hinge cover to be installed with a screw, while others have the cover pre-installed.

Cover hinge with plastic cover, secure with small screw into chair. Use the plug to cover the screw hole.

NOTE: Cover, hinge, and plug designs may vary between models.

STEP 8: ADD NECK AND LUMBAR PILLOWS (OPTIONAL)

USER MANUAL

WARNING: Improper use of this chair may cause damage to this chair or result in personal injury. Please use this chair in a non-abusive manner.

1. Tilt lock / height adjustment lever

   Push the lever towards the center of the chair to engage the tilt lock. Pull it away from the chair to disengage the tilt lock.

   To lower the height of the chair, pull the lever upwards while weight is applied on the chair. To increase the height, pull the lever up while the chair is empty.
2. Recline lever

Pull this lever up to recline the seat back forward or backward.
WARNING: Do not apply pressure to the seat back prior to pulling the recline lever. The sudden shift of weight may cause the chair to become unstable which may cause damage to the chair and/or result in personal injury.

3. 4D arm rest

NOTE: Not all chairs feature four-way arm rest adjustability, some may feature two or three-way modes instead.
A. Forward / backward slide button

B. In / out button

C. Height adjustment tab

D. Swivel

4. Tilt tension knob

Rotate this knob to increase (+) or decrease (-) the tilt tension.

TIP: If the chair tilts easily, you may want to increase the tension. Alternatively, decrease the tension if you find it too hard to lean back while sitting on the chair.
