---

**A** — Puck Installation

*This step is mandatory.

**A1** If selected, fit the optional extra Shell Case to your device.

*Before attaching the Puck, fully clean the back of the tablet with the provided wipe and allow it to fully dry.

For optimal adhesion, press firmly & leave for 72hrs in a 20°C environment before use. Do not reposition. Do not use prior to the 72hrs.

**A2** Remove the Puck adhesive backing & locate the Puck level & centrally.

**B** — Disable Rotate

*The Dock is configured for rotate by default.

Disable rotate if mounting on a vertical surface.

**B1** Remove the Mount Ring locking screw, then removing the Mount Ring.

**B2** Locate & secure the provided screw into the Dock as shown.

**B3** Reattach & secure the Mount Ring to the Dock.

**C** — Freestanding

*Tool-less installation. Only suitable for horizontal surfaces.

**C1** Feed the cable through the Dock.

**C2** Remove the backing from all gaskets.

**C3** Locate & firmly press the Dock onto your chosen surface.

**D** — Fixing from Above

*Suitable if the mounting surface is thicker than: 34mm
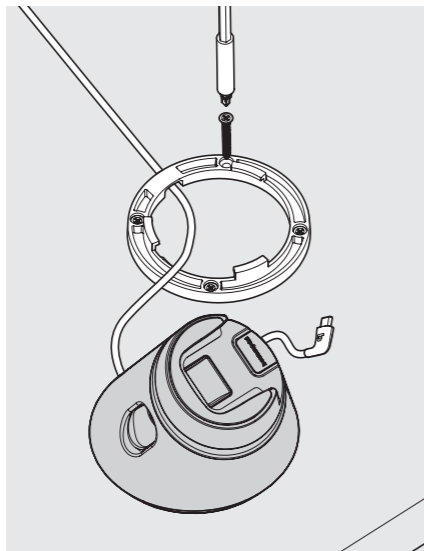

Step C is mandatory if mounting on a vertical surface.

**D1** Remove the Mount Ring locking screw before then removing the Mount Ring.

Recommended minimum distance from wall/back of surface: 140mm

Front

**D2** Using the Mount Ring as a template, mark the drill holes.
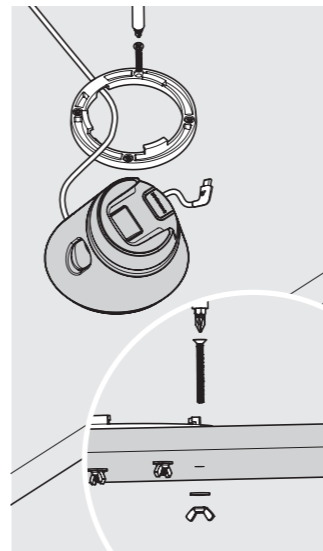

**D3** Drill your mounting surface.

**D4** Feed the cable through the Dock.

**D5** Locate the cable as shown & secure the Mount Ring to your mounting surface.

**D6** Locate & secure the Dock onto the Mount Ring.

**E5** Locate the cable as shown & secure the Mount Ring to your mounting surface.
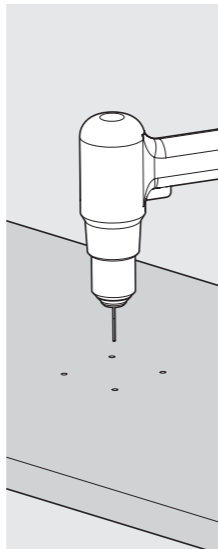

**E6** Locate & secure the Dock onto the Mount Ring.

**F**

How to Dock/Undock

**F1** Slide the Puck sideways, fully into the Dock. The Dock retains your device. The cable can now be connected.

**E**

Fixing from Below

*Suitable if the mounting surface is thinner than: 28mm

Recommended minimum distance from wall/back of surface: 140mm

**E1** Remove the Mount Ring locking screw before then removing the Mount Ring.
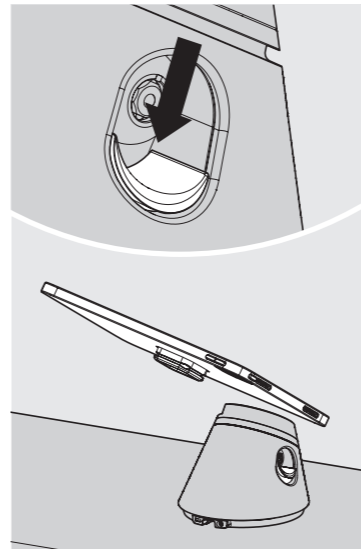

**E2** Using the Mount Ring as a template, mark the drill holes.
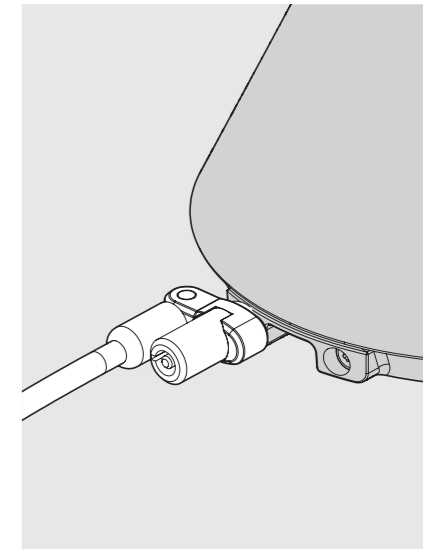

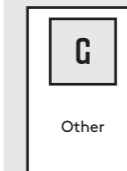

**E3** Drill your mounting surface.

**E4** Feed the cable through the Dock.

**F2** To undock, depress the release button & simultaneously slide your device out of the Dock.

**F3** For added security, lock the Dock with your key whilst your device is Docked.

**G**

Other

**G1** For additional security, tether your Dock with a Kensington security cable. *Security cable not provided.
