

DTEN Mate (PoE)

Versatile Control and Resource Management

SOLUTION OVERVIEW

Designed for Security, Reliability and Easy Resource Management

Today’s busy hybrid workspaces and meeting rooms can get complicated- for both users and IT teams. We’re in the office, out of the office, jumping into huddle sessions and kicking off company-wide all-hands meetings across time zones and doing our best to maximize meeting equity for all.

So let’s take the guesswork out of scheduling, launching and managing meetings so we can focus more on the meeting itself.

Built for Convenience, Versatility and Security

The DTEN Mate (PoE) is a highly secure, reliable and intuitive solution for use as a Zoom Rooms Controller (ZRC) and Zoom Rooms Scheduler (ZRS). With a single tap of the screen, users can launch meetings, admit participants, browse meeting schedules, adjust camera and microphone settings, and so much more.

Users will love the DTEN Mate, whether deployed as the in-room meeting control and command center or informative scheduling display- and with a dedicated Ethernet connection for networking and power, IT teams will too.

Intuitive Touch Interface

Centralized Device Management

Easy to Set Up, Simple to Use

Not already using a DTEN device for your Zoom Rooms experience? No problem - the Mate gets along with everyone.

The DTEN Mate (PoE) is compatible with any device using Zoom Rooms so you can take advantage of all these product benefits in Zoom Rooms Controller (ZRC) mode.

As Zoom Rooms Scheduler (ZRS), Mate will pair with a room resource and allow users to book the room, view room status, or schedule a future meeting session.

Intuitive Control and Resource Management

- As Zoom Rooms Controller (ZRC), DTEN Mate (PoE) provides one-tap to start Zoom meetings, admit participants, adjust camera and microphone settings, and much more
- The DTEN Mate provides flexibility - whether you want to use it outside the conference room for scheduling or inside for convenient control of Zoom meetings

Designed for Flexibility and Versatility

- With its easy-to-install wall-mountable DTEN Mate Dock, the DTEN Mate can be used to reserve meeting rooms and see what other rooms are available within a company's office
- Automatic screen flip technology and clever product design enables a mounting at 20° or 77° for a range of use cases

Convenience, Reliability & Enhanced Security

- Includes locking security bezel for tamper-proof mounting on tabletop, walls and hallways or in shared multipurpose spaces
- Supports 802.1X for network security and flexibility around provisioning and managing devices on the network

DTEN Mate (PoE)

- Versatile Zoom Rooms Controller (ZRC) or Zoom Rooms Scheduler (ZRS)
- Ready to interface with any other certified Zoom Rooms appliances
- LED 10" Capacitive Multi-touch Display
- Lightweight at less than 1 lb
- DTEN Mate Dock can be positioned at either 20° or 77°
- The DTEN Mate Dock comes with mounts for both walls and door frames
