- **Laser-Powered Brightness:** Witness the brilliance of 2,400 Lumens at any time of day and find yourself drawn into the rich 4K display amplified by the Laser Forge Image Engine.
- **Move Your Home Theater:** Easily carry Cosmos Laser 4K around your house with its ergonomically designed handle and enjoy movies in your ideal spot.
- **Setup is a Snap:** Instantly create a cinema with IEA (Intelligent Environment Adaptation) Technology. In only 3 seconds, Gridless Auto Keystone Correction aligns the image without a grid, and Seamless Autofocus quickly clears up the display to keep your attention on the movie.
- **Enjoy Endless Content:** With just a tap of your finger, you can watch your favorite shows from 7,000+ apps, including Netflix (Access with included 4K streaming dongle).
- **Get Lost in Rich Sound:** Immerse yourself in a cinematic universe with 30W speakers that heighten the intensity of the soundtrack and the intimacy of whispers. Plus, AiFi technology and Dolby Audio create a true 3D soundscape to draw you right into the action.
