

Numeric Wired Keypad

USB, Wired, 18 Full-Size Keys, Black

Part No.: **176354**

Fast, accurate numeric data entry combined with a convenient, mobile design.

Manhattan Numeric Wired Keypad enhances any notebook computing experience, especially when inputting important numeric data. The full-size 18-key layout and membrane-style key switch technology reduce typing noise, improve response and provide low-profile keystrokes for fast and accurate data entry. A handy backspace key allows swift corrections. The asynchronous number-lock function allows users to simultaneously input letters from the computer's keyboard and input numeric data from the keypad. Its USB connection, plug-and-play installation and ultra slim, lightweight construction make it easy to pack and travel.

Features:

- 18 full-size keys including backspace key
- Asynchronous number-lock function operates independently of computer keypad for faster numeric-data entry
- Membrane key switches reduce typing noise, improve response and provide low-profile keystrokes
- Ultra-slim and lightweight – ideal for notebook computer users
- Ergonomic design provides support for comfortable use to avoid wrist strain
- Full sized, low-profile keys are easy to identify; ideal for data input and increased accuracy
- Plug and Play; no drivers or installation required
- Three-Year Warranty

Specifications:

Standards and Certifications

- USB 1.1
- FCC
- CE
- RoHS2
- WEEE

Connections

- USB Type-A male

General

- Number Lock LED indicator
- Five-million keystroke lifespan
- Membrane, full-travel keys

Physical

- Housing: ABS plastic
- USB cable: 1.29 m (4.2 in.)
- Dimensions: 140 x 85 x 23 mm (5.5 x 3.4 x 0.9 in.)
- Weight: 90 g (3.3 oz.)

Operating Environment

- Operation Temperature: 32 – 104°F (0 – 40°C)
- Storage Temperature: -4 – 140°F (-20 – 60°C)
- Humidity (noncondensing): 5 – 90%

System Requirements

- Windows XP/Vista/7/8.1/10 or Linux or Mac 9.x/10.x or above

Package Contents

- Numeric Wired Keypad
- Quick Instruction Guide
