PHILIPS

Highlights

Power supply and plug included

This unit pack comes with all the elements you need to get started, including a lightstrip and outdoor power supply. So all you have to do is unpack, install where you want and turn them on.

Beautiful your backyard

Give your garden a chance to shine as brightly as your home. Over 16 million colours and 50,000 shades of warm and cool white light allow you to decorate the outside just like the inside, whether you're illuminating a walkway or shining a spotlight on your favourite part of the patio.

Connect to the Hue Bridge

This product requires a connection to the Hue Bridge to unlock the full smart control and features. Control your lights using the Philips Hue app, set timers, routines, add or remove lights and more. *Hue Bridge sold separately

Weatherproof light strip

The outdoor light strip can withstand all weather conditions, from small puddles of water to a downpour that lasts for hours.

Flexible light strip

Completely flexible, the outdoor light strip lets you shape, bend and manipulate it to shine its light the way you want. Line a winding outdoor path or let it meander up a wall or column; with the included clips and screws, you can install it anywhere.

Perfectly uniform and diffused

Philips Hue outdoor strip light features a special coating that diffuses, or scatters, the emitted white or coloured light. There's no need to hide the light strip, whether you're using it for direct or indirect lighting – all you see is pure light.

Specifications

Design and finishing

- Colour(s): multi
- Material: silicone

Environmental

- Operational humidity: 5% <H<95% (non-condensing)
- Operational temperature: -20 °C to 45 °C

Guarantee

- 2 years: Yes

Lightstrip

- Cut-ability: No
- Height: 11 mm
