Product Description

Ideally suited for high bandwidth desktop and gaming setups demanding premium sound and image quality, and compatible with Kensington Thunderbolt 3 and USB-C docking stations, the Kensington DisplayPort 1.4 (M/M) Cable provides trusted connectivity. Compatible with Intel Thunderbolt, VESA Display Stream Compression (DSC) technology and USB-C interfaces. This cable is tested to perform with HD monitors and Kensington docks – and is backed by a Kensington Limited Lifetime Warranty. Extend your desktop to include the latest 8K, 5K and 4K monitors. Quality cable construction includes outer & inner shielding to minimise possible radio (RFI) and electromagnetic (EMI) interference, nickel plated connectors and connection latch to provide consistent cable performance, exceptional picture quality and authentic sound.

Features

- Works with all the latest high resolution video needs.
- DisplayPort 1.4 provides the benefits of HDR.
- Ensures consistent DisplayPort 1.4 experience.
- Buy with confidence. Tested to work with Kensington docks.
- Accommodates desktop setups.
- Works with Kensington docking station deployments.
