ACTIVE Technology

Plug and Play - Active Chipset

The HDMI cable includes a built-in chipset to allow support for ACTIVE conversion. The ACTIVE cable will work with DisplayPort or DisplayPort outputs that are not capable of outputting DP++, such as a video card like AMD Eyefinity, it will also work with DP++ outputs. The cable is also Plug and Play, allowing for immediate use without driver or software installation

Ultra Construction

The ALOGIC Ultra range is crafted from superior materials and specially designed to guarantee a longer lifespan. The cable core is strengthened with synthetic fibre and reinforced with thermoplastic (TPE) jacket to provide increased protection against all types of wear and tear. The cable head is also constructed from thermoplastic (TPE) for maximum strain relief and finished with a metal alloy housing for added durability.
