- Perfect for placement on wall or ceiling, the luminaire gives you the freedom to customise your look to match your interiors.
- Easy installation

Light effect
- Uniform light distribution

Premium quality
- EyeComfort — light that's easy on the eyes

Highlights

Perfect to relax and socialise

The living room is the heart of any home: a place where families gather to relax and guests socialise. Lighting for your living room and bedroom has to be flexible and easy to adjust to its different uses throughout the day. Careful placement of different light sources and playing with light layering helps create the feeling of space and gives the room a warm and welcoming feel.

Super slim design

Slim design is ideal for low-ceiling rooms, sitting flush against the surface.

Adaptable mounting for wall or ceiling Easy installation

No more hassle with installation. Just fix or hang securely on the wall or ceiling, and plug it in. Your new light fitting is now ready to light up your room!

Uniform light distribution

Throw light across your rooms in an even and uniform manner.

EyeComfort

Poor quality light can cause eye strain. With many of us spending time indoors, it's more important than ever to properly light your home. Our products meet stringent test criteria including flicker, strobe, glare, colour rendition and dimming effects to ensure they

meet EyeComfort requirements. Philips LED bulbs not only deliver comfortable light, but also stay that way for the duration of their lifespan, delivering consistent light quality, output and colour for more than a decade. Switch to light that's easy on your eyes. Your eyes will thank you.
