AWARD-WINNER *iiyama*
Tested and approved · Tested and approved · Tested and approved

Dear user, we congratulate you on the purchase of your iiyama LCD.

For details on warranty and locally used pixel policies that apply directly after installation of your product please check the iiyama website.

To report a fault, please contact your local support centre found at www.iiyama.com/service

Things to check before you call the iiyama information line

| if the power cable is connected securely and turned on?

| if the display has been turned on?

| if the signal cable is connected securely and the correct input selected?

| if the computer has been restarted with the display connected?

| if the graphics card is correctly installed with the latest drivers possible?

| if the correct native resolution has been selected via 'Display Properties'?

| If the R/G/B signal configuration is correct?

| if the displays On Screen Menu is shown?

| if the correct brightness and contrast settings have been set?

| if given display tolerances and compatibility have been considered?

| if via the On Screen Menu you have performed a Factory Reset/Recall?

Before reporting the screen defect, please prepare the following information/evidence:

| model number *

| purchase receipt and serial number *

| name and address for collection

| telephone/fax number, for availability during the day

| convenient collection date (date, time)

| short description of the defect

Important Note:

If there is no fault found in the collected equipment after inspection,
the transferring party shall incur charges for transport and administration.

If you have checked all of the above and there is still no picture, call our information line for assistance in your country.

* see the identification plate on the back of the case.

iiyama

CE MARKING DECLARATION OF CONFORMITY

This Touch Panel PC complies with the requirements of the EC/EU Directive 2014/53/EU "Radio Equipment Directive", 2009/125/EC "ErP Directive" and 2011/65/EU "RoHS Directive".
The electro-magnetic susceptibility has been chosen at a level that gives correct operation in residential areas, business and light industrial premises and small-scale enterprises, inside as well as outside of the buildings. All places of operation are characterised by their connection to the public low voltage power supply system.

IIYAMA CORPORATION: Wijkermeerstraat 8, 2131 HA Hoofddorp, The Netherlands

Model No. : TW1523A

☐ mark:
Equipment protected throughout by Double insulation or Reinforced insulation.

We recommend recycling of used product. Please contact your dealer or iiyama service center. Recycle information is obtained via the Internet, using the address: http://www.iiyama.com
You can access the Web page of different countries from there.

■ We reserve the right to change specifications without notice.

FOR YOUR SAFETY

SAFETY PRECAUTIONS

WARNING

STOP OPERATING THE TOUCH PANEL PC WHEN YOU SENSE TROUBLE
If you notice any abnormal phenomena such as smoke, strange sounds or fumes, unplug the Touch Panel PC and contact your dealer or iiyama service center immediately. Further use may be dangerous and can cause fire or electric shock.

NEVER REMOVE THE CABINET
High voltage circuits are inside the Touch Panel PC. Removing the cabinet may expose you to the danger of fire or electric shock.

DO NOT PUT ANY OBJECT INTO THE TOUCH PANEL PC
Do not put any solid objects or liquids such as water into the Touch Panel PC. In case of an accident, unplug your Touch Panel PC immediately and contact your dealer or iiyama service center. Using the Touch Panel PC with any object inside may cause fire, electric shock or damage.

INSTALL THE TOUCH PANEL PC ON A FLAT, STABLE SURFACE
The Touch Panel PC may cause an injury if it falls or is dropped.

DO NOT USE THE TOUCH PANEL PC NEAR WATER
Do not use where water may be splashed or spilt onto the Touch Panel PC as it may cause fire or electric shock.

OPERATE UNDER THE SPECIFIED POWER SUPPLY
Be sure to operate the Touch Panel PC only with the specified power supply. Use of an incorrect voltage will cause malfunction and may cause fire or electric shock.

CORRECT USE OF THE AC ADAPTER
Use only the AC Adapter provided by iiyama. Any deviation from this by using another type of adapter may result in damage to the accessory and the Touch Panel PC by fire or electric shock.

DO NOT DISASSEMBLE THE AC ADAPTER
Disassembling the AC Adapter may expose you to the danger of fire or electric shock.

PROTECT THE CABLES
Do not pull or bend the AC adapter, the power cable and signal cable. Do not place the Touch Panel PC or any other heavy objects on the cables. If damaged, the cables may cause fire or electric shock.

ADVERSE WEATHER CONDITIONS
It is advisable not to operate the Touch Panel PC during a heavy thunder storm as the continual breaks in power may cause malfunction. It is also advised not to touch the plug in these circumstances as it may cause electric shock.

ENGLISH

INSTALLATION LOCATION
Do not install the Touch Panel PC where sudden temperature changes may occur, or in humid, dusty or smoky areas as it may cause fire, electric shock or damage. It also shall not be exposed to excessive heat such as sunshine, fire or the like.

DO NOT PLACE THE TOUCH PANEL PC IN A HAZARDOUS POSITION
The Touch Panel PC may topple and cause injury if not suitably located. Please also ensure that you do not place any heavy objects on the Touch Panel PC, and that all cables are routed such that children may not pull the cables and possibly cause injury.

DISCONNECT THE CABLES WHEN YOU MOVE THE TOUCH PANEL PC
When you move the Touch Panel PC, turn off the power switch, unplug the Touch Panel PC and be sure the signal cable is disconnected. If you do not disconnect them, it may cause fire or electric shock.

UNPLUG THE TOUCH PANEL PC
If the Touch Panel PC is not in use for a long period of time it is recommended that it is left unplugged to avoid accidents.

HOLD THE PLUG WHEN DISCONNECTING
To disconnect the AC adapter, the power cable or signal cable, always pull it by the plug. Never pull on the cable itself as this may cause fire or electric shock.

DO NOT TOUCH THE PLUG WITH WET HANDS
Pulling or inserting the plug with wet hands may cause electric shock.

CAUTIONARY NOTICE ABOUT BATTERY
Battery can not be replaceable. If you need to replace the battery, contact your dealer or iiyama service center for safety concern.

OTHERS

ERGONOMIC RECOMMENDATIONS
To eliminate eye fatigue, do not operate the Touch Panel PC against a bright background or in a dark room. For optimal viewing comfort, the Touch Panel PC should be just below eye level and 40-60 cm (16-24 inches) away from your eyes. When using the Touch Panel PC over a prolonged time, a ten minute break every hour is recommended as looking at the screen continuously can cause eye strain.

SPECIAL NOTES ON LCD SCREEN

The following symptoms are normal with LCD screen and do not indicate a problem.

NOTE
- You may find slightly uneven brightness on the screen depending on the desktop pattern you use.
- Due to the nature of the LCD screen, an afterimage of the previous screen may remain after switching the image, when the same image is displayed for hours. In this case, the screen is recovered slowly by changing the image or turning off the Power Switch for some hours.

USAGE

This product can be used 24 hours a day with limited lifetime. If you use this product with reduced brightness to 50% of the maximum value, the lifetime of the LED backlight is typically 30,000 hours. This product supports Landscape, Portrait and Face-Up (Tabletop) orientations.

GHOSTING (GHOST IMAGE)

Please be aware that on all LCD screens you can experience ghosting. The ghost image occurs when a residual image remains visible on a screen when static images are displayed for a long period of time. The ghost image is not permanent, but still images being displayed for a long period of time should be avoided.

TO PREVENT GHOSTING (GHOST IMAGE)

To prevent ghosting and promote a longer life expectancy of the Touch Panel PC, we recommend the following:

- Use a screensaver that has moving graphics or blank and white images.
- Switch desktop backgrounds regularly.
- Lower the brightness of the Touch Panel PC.
- Turn off the Touch Panel PC when not in use or manage the power-off time by utilizing the multifunction clock.
- When the Touch Panel PC is installed in high ambient temperature environment(s) or is completely enclosed, we strongly recommend using an active ventilating system or cooling fans.

TO ELIMINATE GHOSTING (GHOST IMAGE)

- Turn off the Touch Panel PC for an extended period of time. It can be several hours or several days.
- Use a screen saver (black and/or white) and run it for an extended period of time.

CUSTOMER SERVICE

NOTE ■ If you have to return your unit for service and the original packaging has been discarded, please contact your dealer or iiyama service center for advice or replacement packaging.

CLEANING

WARNING ■ If you drop any materials or liquids such as water into the Touch Panel PC when cleaning, unplug the power cable immediately and contact your dealer or iiyama service center.

NOTE ■ To protect the Touch screen surface, do not scratch or rub the screen with a hard object.

■ Never use any of the following strong solvents. These will damage the cabinet and the Touch screen surface.

Thinner	Benzine	Abrasive cleaner
Spray-type cleaner	Wax	Acid or Alkaline solvent

■ Touching the cabinet with any product made from rubber or plastic for a long time may cause degeneration or loss of paint on the cabinet.

CABINET Stains can be removed with a cloth lightly moistened with a mild detergent solvent. Then wipe the cabinet with a soft dry cloth.

TOUCH SCREEN Touch screen surface may be cleaned using a soft clean cloth moistened with mild window glass commercial cleaners or 50/50 mixture of water and IPA (ISO-propyl-alcohol). Don't use acid or alkaline solvent to clean the surface of the panel (or screen).

SPECIAL NOTES ON TOUCH PANEL

CAUTION ■ Permanent damage can occur if Sharp Edged, Pointed or Metal items are used to activate Touch.
This could invalidate any remaining warranty.
We recommend you use a conductive stylus (tip R0.8 or over) or finger.

BEFORE YOU OPERATE THE TOUCH PANEL PC

FEATURES

- ◆ **Supports Resolutions up to 1920 × 1080**
- ◆ **High Contrast 1000:1 (Typical) / Brightness 450cd/m^2 (Typical)**
- ◆ **Power over Ethernet**
- ◆ **Auto-Rotation**
- ◆ **2 × 2W Stereo Speakers**
- ◆ **Android OS**
- ◆ **VESA Mounting Standard (100mm×100mm) Compliant**
- ◆ **Anti fingerprint finish**

CHECKING THE CONTENTS OF THE PACKAGE

The following accessories are included in your package. Check to see if they are enclosed with the Touch Panel PC. If anything is missing or damaged, please contact your local iiyama dealer or regional iiyama office.

- ■ AC Adapter *
- ■ Interchangeable Plugs (Type: EU/UK)
- ■ Cable Cover
- ■ Screws for Cable Cover (2pcs)
- ■ M4 Screws for VESA Mount (5pcs)
- ■ Safety Guide
- ■ Quick Start Guide

NOTE * Applicable AC Adapter

Type Name	FJ-SW1202000N
Manufacturer	SHENZHEN FUJIA APPLIANCE CO., LTD. 5F of Building F, Hengchangrong(xinghui) Sci-Tech. Park, Huaning Road, Longhua District, Shenzhen, Guangdong, P. R. China
Input Voltage	100-240VAC
Input AC Frequency	50/60Hz
Output Voltage	12.0VDC
Output Current	2.0A
Output Power	24.0W
Average Active Efficiency	86.2% minimum
Efficiency at Low Load (10%)	72.88% minimum
No-Load Power Consumption	0.10W maximum

INSTALLATION

WARNING Before installation, please make sure the wall or desktop arm is strong enough to hold the necessary weight of the Touch Panel PC and the mount.

[WALL MOUNTING]

WARNING When using the wall mounting, consideration of thickness of the mounting stage needs to be taken. Tighten the M4 Screws (4pcs) with washer which "L" length is 4mm to fasten the Touch Panel PC. Using a screw longer than this may cause electric shock or damage because it may contact with the electrical parts inside the Touch Panel PC.

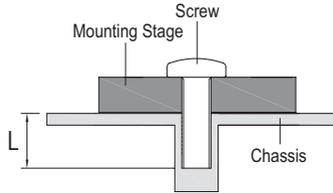

[BUILT-IN EQUIPMENT]

WARNING This product is not designed for the purpose of being used in high temperature environment.
If the product is placed in an external cabinet, you need to design cooling fans and vents to keep the temperature low enough to fit in the product temperature specification.

[ROTATING THE TOUCH PANEL PC]

This Touch Panel PC is designed to be compatible in landscape, portrait and face-up modes.

CONNECTING YOUR TOUCH PANEL PC

① Connect the AC Adapter to the Touch Panel PC first and then connect to the power source.

② Turn on your Touch Panel PC.

NOTE
- ■ Make sure that the building installation has a circuit breaker of 120/240V, 20A (maximum).
- ■ The Class I pluggable equipment Type A must be connected to protective earth.
- ■ The socket-outlet shall be installed near the equipment and shall be easily accessible.
- ■ Excessive sound pressure from ear-/headphones can cause hearing damage/hearing loss.
- ■ The initial setup of the operating system takes approximately 5-10 minutes.
- ■ To setup the Android OS for the Touch Panel PC, turn on the Touch Panel PC and follow the instructions on the screen.

Key Lock: Disables Power Switch, Volume + and Volume – Buttons.

TROUBLE SHOOTING

If the Touch Panel PC fails to operate correctly, please follow the steps below for a possible solution.

1. Perform the adjustments described in OPERATING THE TOUCH PANEL PC, depending on the problem you have. If the Touch Panel PC does not get a picture, skip to 2.
2. Consult the following items if you cannot find an appropriate adjustment item in OPERATING THE TOUCH PANEL PC or if the problem persists.
3. If you are experiencing a problem which is not described below or you cannot correct the problem, discontinue using the Touch Panel PC and contact your dealer or iiyama service center for further assistance.

Problem	Check
① The picture does not appear.	☐ The AC Adapter is firmly seated in the connector and the socket. ☐ The Power Switch is turned ON. ☐ The AC socket is live. Please check with another piece of equipment. ☐ If the Touch Panel PC is in sleep mode, press the Power Switch or any other button or touch the screen. 　**NOTE** ■ To enable the touch wake up function, first you need to disable "Wake On LAN" in the application of Settings / Accessibility. 　　　　■ By default, the Touch Panel PC enters into sleep mode after 10 minutes of no operation. You can choose "Never sleep" in the application of Settings / Display / Sleep. ☐ Increase the Brightness. ☐ The pins of the connectors are not crooked or broken.
② The screen is shaking.	☐ The power voltage is within the specification of the Touch Panel PC.
③ No sound	☐ The Volume is turned up. ☐ Check the sound settings.
④ The touch screen does not work.	☐ It takes about 15 seconds or more to activate the P-CAP touch screen function after power is turned off and on. This is normal operation. Please wait for a certain period.

RECYCLING INFORMATION

For better environment protection please don't dispose your Touch Panel PC.
Please visit our web site: www.iiyama.com for Touch Panel PC recycling.
