

# P10 FLUX

THE ULTIMATE THERMAL PERFORMANCE FOR SILENT CASES

The **P10 FLUX** mid-tower silent case is well equipped with an industry-leading design of advanced ventilation, taking the Performance Series silent cases to the next generation.

Reversible & Swing-Open Front Panel with a brushed metallic effect.

Net Weight: 7.3 Kgs  
Gross Weight: 8.6 Kgs

## WHY THE NEW COOLING SOLUTION?

When Intel and AMD announced their latest CPUs, they all deliver remarkable performance upgrades and better productivity, it also means the functional requirement of PC equipment needs to be taken to the next level, especially the thermal performance.

## F-FLUX PLATFORM - ANTEC'S ORIGINAL COOLING SOLUTION

**What is the F-FLUX Platform?**

The definition of FLUX is **Flow Luxury**.

The F-FLUX Platform is a new industry-leading and highly efficient design by Antec featuring an **advanced case structure for excellent airflow** and **5 x 120 mm fans included**. A core element of the design ethos was to enhance GPU cooling performance.

F-FLUX Platform will provide massive airflow when the GPU is functioning, enhancing the heat dissipation, and gaming performance.

## F-FLUX PLATFORM - ANTEC'S ORIGINAL COOLING SOLUTION

**5 x 120 mm Fans Included**

**REAR**

**1 X 120 MM FAN**

Pulls out the heat from the interior and helps your PC to cool down.

**ON THE TOP OF PSU CHAMBER**

**1 X 120 MM REVERSE FAN**

The included 120 mm reverse fan is for the top of the PSU chamber, which pulls cool air into the case via the ventilation at the right-side panel and the bottom, providing heightened GPU cooling performance.

**FRONT**

**3 X 120 MM FANS**

Highly efficient silent fans provide strong cooling yet produce low noise.

## ALL-ROUND DIRECTED AIRFLOW

With the air-concentrating front filter, P10 FLUX pulls in the air from all directions and enhances cooling.

**Air-Concentrating Front Filter**

With the design of bars at various height, the front filter can concentrate airflow to improve thermal performance.

**Widened Air Passage**

11 mm space between the front door and filter allows P10 FLUX to pull in more air.

## SPEED IT UP

The fan-speed control button provides high & low modes. You can switch to either mode based on your needs.

**BUILT-IN FAN SPEED CONTROLLER**

Supports up to 6 fans

3-pin fan connectors

3-pin fan connectors

## THE BALANCE BETWEEN FLOW LUXURY AND SILENCE

With a single press and open-or-close action, P10 FLUX can reach the performance you want, yet keep the balance between airflow and silence.

**Fan-Speed Control Button:** Press it for high/low fan speed at your will.

**Swing-Open Front Panel:** Keep it open/close for better airflow/silence.

## CHOOSE YOUR SIDE

P10 FLUX features a reversible and swing-open front panel design. You can choose to install the front panel on either side according to your dominant hand or PC setup environment.

**145°**

Maximum rotation angle: 145 degrees.

**Right-Handed**

**Left-Handed**

Strongly magnetic front door ensures the sound-dampening effect.

## ALL ABOUT SILENCE

With sound-dampening foam on the front door, sides and top, P10 FLUX ensures you the absolute silence.

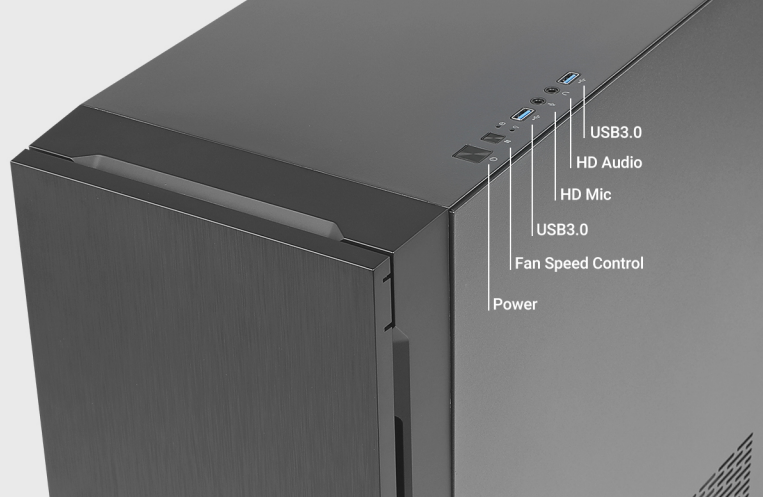

**Top:** Full sound-dampening foam

**Left Side:** Full sound-dampening foam

**Right Side:** The upper half: sound-dampening foam / The lower half: air intake

**Front Door:** Sound-dampening foam with 0.5 mm steel panel for absorbing energy

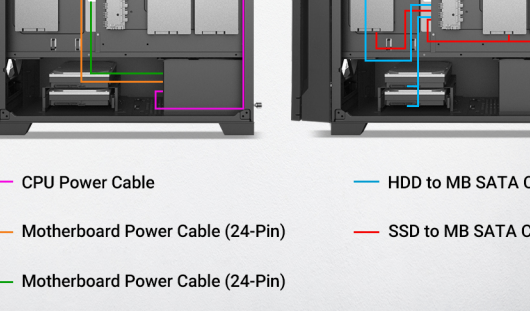

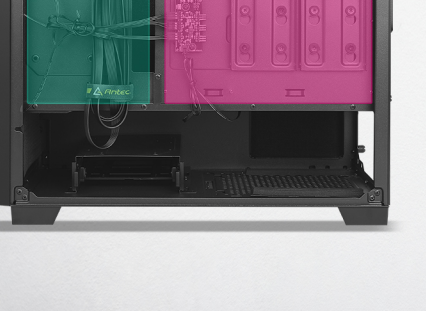

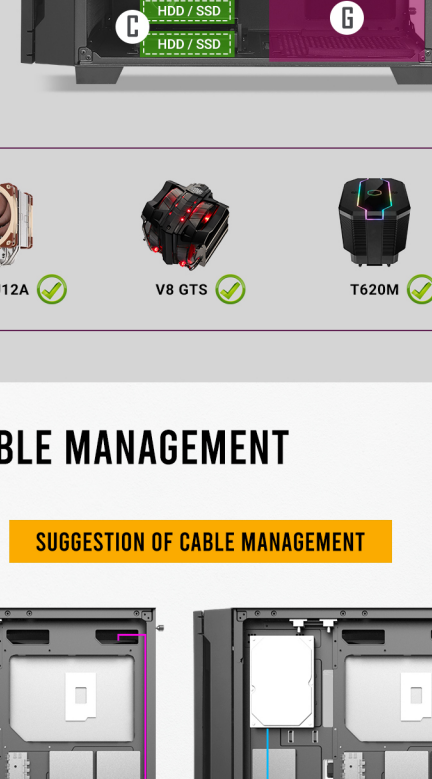

## KEEP IT CLEAN

All the hubs have a dust plug, preventing them from damage.

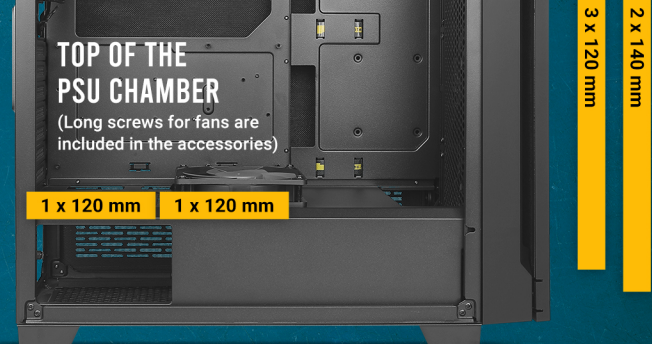

## READY FOR PERFORMANCE

- A** Motherboard Support: ATX, Micro-ATX, ITX
- B** 2.5" SSDs: 3
- C** 3.5" removable HDDs / 2.5" SSDs (Compatible): 3/2
- D** 5.25" ODD: 1 (The ODD bracket can be removed.)
- E** Max GPU Length: 405 mm (Supports high-end VGA, e.g. MSI GeForce, ASUS ROG)
- F** Max CPU Cooler Height: 175 mm (Supports high-end CPU cooler, e.g. Noctua NH-U12A)
- G** Max PSU Length: 205 mm

## SUFFICIENT SPACE FOR CABLE MANAGEMENT

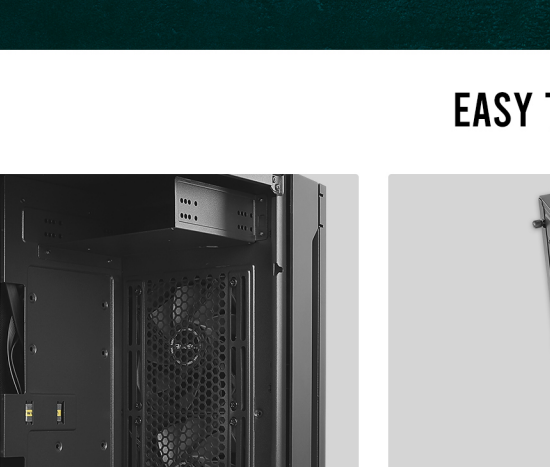

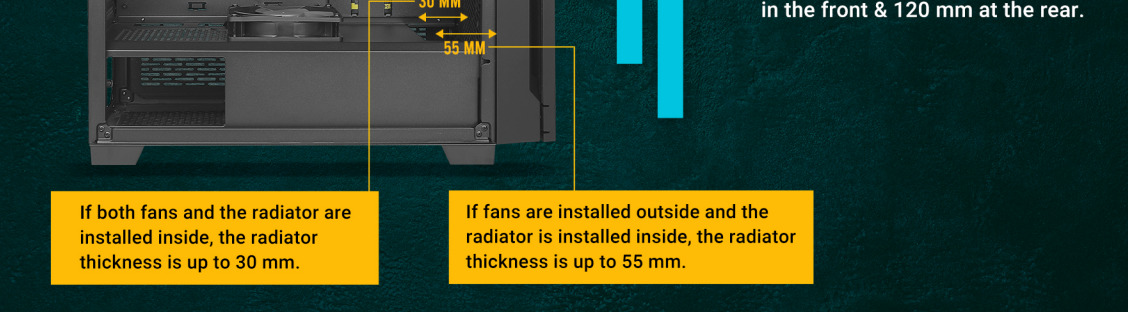

**SUGGESTION OF CABLE MANAGEMENT**

- CPU Power Cable
- HD Drive Power Cable (24-Pin)
- Motherboard Power Cable (24-Pin)
- HDD to MB SATA Cable
- SSD to MB SATA Cable

## ULTIMATE THERMAL PERFORMANCE

Supports up to 6 fans.

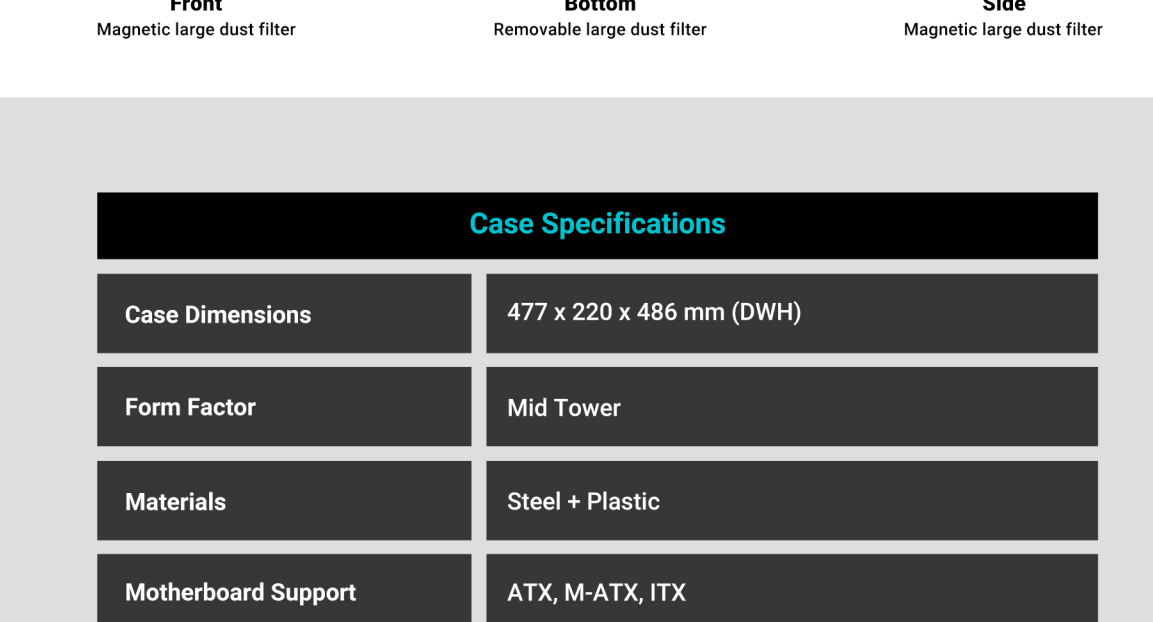

## MAKE IT COOLER

P10 FLUX keeps your gear cool with room for up to 360 mm radiator in the front & 120 mm at the rear.

If both fans and the radiator are installed inside, the radiator thickness is up to 30 mm.

If fans are installed outside and the radiator is installed inside, the radiator thickness is up to 55 mm.

## EASY TO CLEAN

**Front:** Magnetic large dust filter  
**Bottom:** Removable large dust filter  
**Side:** Magnetic large dust filter

## Case Specifications

Case Dimensions	477 x 220 x 486 mm (DWH)
Form Factor	Mid Tower
Materials	Steel + Plastic
Motherboard Support	ATX, M-ATX, ITX
I/O Ports	Power, Fan Control Button, 2 x USB3.0, HD-AUDIO
Side Panel	Sound Dampening Panel
<b>Expansion &amp; Drive Bays</b>	
Expansion Slots	7
5.25"	1
3.5" / 2.5" (Convertible)	3 / 2
2.5"	3
<b>Fan Support</b>	
Front	3 x 120 mm / 2 x 140 mm
Power Supply Shroud	2 x 120 mm
Rear	1 x 120 mm
Included Fan(s)	3 x 120 mm silent fans in front 1 x 120 mm reverse fan on PSU shroud 1 x 120 mm fan in rear
<b>Radiator Support</b>	
Front	120 / 240 / 280 / 360 mm
Rear	120 mm
<b>Clearances</b>	
Max GPU Length	≤ 405 mm
Max CPU Cooler Height	≤ 175 mm
Max PSU Length	≤ 205 mm
<b>Miscellaneous</b>	
Dust Filters	Front / Bottom / Right Hand Side
Net Weight	7.3 Kgs
Gross Weight	8.6 Kgs
Warranty	2 Years
UPC#	0-761345-80100-3
