

AOC DP CABLES

5m ~ 20m AOC DisplayPort Cables

DisplayPort Active Optical Cable (AOC) use fibre optic cable to carry the DisplayPort signal. This means that the signal can be carried much further than a traditional copper cable and reduces the risk of interference.

DisplayPort AOC cables also have copper wires inside which carries the power so no external power adapter is required.

This cable must be connected with the Source connector & Display connector connected the correct way round

Features

- DisplayPort Active Optical Cable
- DisplayPort v1.4
- Supports 8K@60Hz
- HBR 3
- CPR Rated
- Frustration free packaging

Specifications

- Metal Connectors
