

Hive Thermostat for Heating and Hot Water (Hubless)

Heating and hot water control from your smartphone, tablet and laptop

Product overview

Take control of your heating and hot water anytime, anywhere. Hive makes controlling your heating and hot water easy from your mobile, tablet or laptop. The updated Hive Thermostat brings an elegant and sleek touch-button design, intuitive control and easy-to-use features.

Hive works no matter who supplies your energy and will work with your existing heating system. With Hive, you'll never need to heat an empty home again so you could save up to £110 a year on your heating bills.

To control your Hive Thermostat remotely via the app, you'll need a Hive Hub, sold separately.

Product features

- **Heating and Hot Water schedules** – set up to six daily time slots
- **Heating and Hot Water Boost** – for up to six hours
- **Automatic Frost Protection** – helps prevent frozen pipes
- **Geolocation*** – heating alerts when you leave or return home
- **Holiday Mode*** – tell Hive your holiday dates and come back to a warm welcome
- **Temperature graphs*** – keep track of how you are using your heating

Box includes

- Hive Thermostat
- Receiver
- 4 x **DURACELL** battery AA Lithium
- Pack wall plugs
- Welcome guide
- User guide
- 1 x Installation guide supplied with product

Key messages & benefits

- Control your heating and hot water from your smartphone, tablet or laptop
- New-look Hive Thermostat with touch-buttons – a fresh take on the classic design
- No need to switch energy supplier
- Works with your existing boiler
- Save up to £110 a year on your heating bills

Your Hive kit

- **Wireless Thermostat** – lets you control your heating and hot water when you're at home
- **Receiver** – enables your thermostat and hub to communicate with your boiler

Extra info

- New-look Hive Thermostat is not compatible with the interchangeable coloured frames
- Hive Thermostat for Heating and Hot Water must be installed by a qualified professional
- Hive Thermostat for Heating and Hot Water is suitable for homes that have a conventional boiler with a separate hot water tank. If you do not have a separate hot water tank and have a combi boiler instead, then Hive Thermostat for Heating is the right product for you.
- Works with Alexa, Google Assistant, Apple HomeKit, Siri Shortcuts and IFTTT

What you'll need to get Hive

- A working central heating system, Hive can be installed on gas or LPG systems (and certain electric boilers)
- A Hive Hub – sold separately – to control your thermostat remotely
- For the Hive app, you'll need an Apple iPhone or iPad (iOS 9 or higher) or a device running Android (min 4.4)
- Laptop or tablet with internet access and an up-to-date web browser (we recommend minimum: Microsoft Edge or the latest versions of Google Chrome, Firefox and Safari)
- Hive is a British Gas innovation, but you don't need to be a British Gas customer to buy the Hive products
