ThinkPad P1 Gen 4 SIMPLY SPECTACULAR

THE POWER YOU NEED, THE MACHINE YOU WANT

Powerful, mobile, and visually stunning. The ThinkPad® P1 is the perfect combination of form and function designed to be admired. The sleek thin and light carbon fiber weave design hints at what's inside: a powerful system that offers a choice of the latest Intel Core or Xeon processors, redesigned thermals for increased graphics support, up to NVIDIA RTX A5000 GPU and PCIe Gen4 SSDs for faster, advanced storage technologies. Now boasting a 16-inch panel, narrower bezels, and a 16:10 aspect ratio for increased screen real estate, the P1 is a content creator's dream.

Reimagined with the remote user in mind, the P1 is 5G enabled for ultimate connectivity, a 1080p FHD camera for high quality video conferencing, a new keyboard with larger touchpad and a new fingerprint reader integrated with the power button. Equipped with higher wattage power adapters, larger battery, low blue light displays, Dolby Vision, and color calibration for crisp, clear images this robust system is the perfect combination of power, ultra-premium design, and true mobility.
