The Premium Experience

Step into a new world in terms of entertainment with the Trust GXT 635 Rumax RGB LED Illuminated 2.1 Speaker Set. These stereo speakers come with a powerful subwoofer, can be adjusted to your liking in terms of sound quality, and are outfitted with multiple RGB zones for a premium audio experience with a nice visual flair.

Powerful and Rich Sound

With the Trust Rumax you'll experience audio in a completely new way. This set outputs 80W of peak power (40W RMS) and comes with a 5 inch subwoofer for a thundering bass. Adjust the bass and the treble to your liking, either via the controls on the back of the speaker or by using the wireless remote.

Colourful Ambience

The Rumax is outfitted with multiple zones of RGB LED lighting to create a unique ambience. The frontside and the driver of each speaker are illuminated and there is even a RGB LED on the backside of each satellite to project a beautiful light on your wall. Thanks to the 6 pre-defined light modes on this speaker set, you'll create an ambience unlike any other, like rotating RGB or bass-synced effects to completely immerse you in your game.

Multiplatform

Why choose your speaker set on what connection it uses? The Trust Rumax works with pretty much anything: HDMI ARC, optical, 3.5mm. There's Bluetooth so you can connect your phone wirelessly or just plug in a USB flash drive with MP3's. The possibilities are endless; connect The Trust Rumax to your PC or laptop, your game console, your TV or set top box. Experience a new way of playing games, watching movies or listening to music.

Complete Control

The Trust Rumax comes with a handy remote control which allows you to fully control your music, the sound quality and the lighting effects. You can adjust the volume and turn on the Eco mode which will switch off the speaker set when not in use. There are also control knobs on the back of the speaker to adjust the bass and treble if you prefer to use those. With the Rumax, you're in complete control.
