

USB Mono Headset with Mic and Volume Control

A comfortable, durable and universally compatible plug-and-play solution.

K80100WW

Product Description

The USB Mono Headset with Mic and Volume Control delivers exceptional sound in a comfortable, durable and universally compatible USB-A plug-and-play solution. Features include a powerful 27mm driver delivering deep bass and a wide dynamic range; 94dB limit for safe listening, an adjustable headband that fits heads of all sizes, a plush, replaceable, sealed earpad for all-day comfort; a strong 1.8m USB-A cable to withstand heavy use; Windows/Mac/Chromebook compatibility, an inline omnidirectional noise-cancelling microphone with volume control for easy one-handed operation together with a one-year warranty.

Features

- 27mm driver enables deep bass and a wide dynamic range.
- Safe listening limit sets the maximum output to 94dB to protect ears from hearing loss associated with extended periods of excessively loud sound.
- The adjustable headband fits heads of all sizes, with a plush, replaceable, sealed earpad for all-day comfort.
- Robust design includes a sturdy plastic headband and a strong 1.8m USB-A cable to withstand heavy use and allow for flexible placement.
- Works with Windows, Mac and Chromebook devices.
- Omnidirectional noise-cancelling microphone with inline volume control provides easy, one-handed operation.
- A one-year warranty means you can rest assured knowing you're covered by Kensington.
