Adjust 2

Hands-on color control

The Adjust 2 is a convenient hardware controller designed for use with Fractal ARGB fans and all other standard 5V addressable RGB devices. A single unit provides easy software-free control, customization and synchronized effects for several fans, LED strips, and other ARGB devices connected in a chain or using Y-chain configurations. Intuitive controls let the user set and customize colors, configure brightness, and set color cycling modes with a variety of pulse and motion effects.

Fractal

Key features

- Works right out of the box – no software needed

- Choose from twelve color modes, five brightness modes and nine pulse/motion effects.

- Compatible with all Fractal ARGB devices and any standard 5V ARGB LED fan, strip or device.

- Remembers settings when your system is powered off.

- Magnets for easier installation – place it anywhere in your case.

- Y-cable adapter included for quick and easy installation of several devices
