Boost productivity with the world’s most efficient A4-A0 experience.^[1] Do it all—print multi-size CAD and renders with the integrated input/output tray. Save time with HP Click. And go beyond with this robust and compact plotter.

Dynamic security enabled printer Certain HP printers are intended to work only with cartridges that have a new or reused HP chip or electronic circuitry. These printers use dynamic security measures to block cartridges using a non-HP chip or electronic circuitry. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. Reused HP chips and electronic circuitry enable the use of reused, remanufactured, and refilled cartridges.
