The ultimate Hi-Fi sound now wirelessly

Every note sounds like the real thing because clear audio starts at the source with your favorite Samsung Galaxy device. The upgraded Samsung Seamless Codec encodes the full 24-bit audio and is decoded via Galaxy Buds2 Pro, maintaining that same 24-bit high-quality sound.

Hear it like you're there

Sound feels more realistic with Intelligent 360 Audio. The 360 Audio algorithms with Direct multichannel (5.1ch / 7.1ch / Dolby Atmos) and Enhanced Dolby Head Tracking provides an immersive experience. Head tracking pinpoints the direction of sound as you move your head for a spatial experience.

In your comfort zone

We redesigned the earbuds to be 15% smaller than Buds Pro to fit snugly in your ear. Enjoy a comfortable fit, thanks to the ergonomically designed earbuds. Enhanced wind flow technology helps reduce ear canal pressure and minimizes noise — for comfort and clarity.
