Product code: 5KV-00002

Product name : Sculpt Ergonomic for Business

Sculpt Ergonomic Keyboard For Business

Microsoft Sculpt Ergonomic for Business keyboard RF Wireless QWERTY English Black:

Unique design for comfort and functionality

With its modern, ergonomic design, Sculpt Ergonomic Keyboard sets the standard for support and comfort. It keeps your hands and arms in a relaxed position as you work, helping you feel refreshed after a day at your desk without soreness or injury.

Protection for your joints

Sculpt Ergonomic Keyboard is built on advanced ergonomic principles, with a split keyboard layout that keeps wrists and forearms in a relaxed position, and a cushioned palm rest that protects against inflammation and repetitive stress injuries. The domed keyboard shape works to reduce and correct excessive wrist pronation that can cause pain and limited mobility.

Following the body's natural lines

The natural arc layout follows the curve of your fingertips for a more natural way of typing. The reverse-tilt design positions the keyboard at the correct angle to give you a neutral wrist position.
